

# Virtual credit cards

How to create an unlimited amount of  
virtual credit cards virtually FREE!

# Thank You

Thank you for purchasing this handbook. You will find everything you need here –including a simple method to make back the money you just spent on this handbook.

**Important, Please Read: In case you missed it, this will only work if you live in the US. If you live outside the US, simply request a refund through PayPal and it will be processed within 48 hours. Thank YOU.**

# BEFORE WE BEGIN

If for some reason you don't know about VCCs (virtual credit cards) let me give you a quick description. A VCC is a credit card that works the same as a real credit/debit card but they are meant to be used to shop safer online.

Here are some things you can do with virtual credit cards:

- ✓ Sign up for unlimited free trials
- ✓ Sell a VCC service
- ✓ Rent VCC (you can delete your VCC whenever you want)
- ✓ Shop safely and anonymously
- ✓ CPA offers
- ✓ And much more...

# Do you live in Vermont?

If you live in Vermont, you can't open an account with this site (sorry folks, this is stated on their terms). I don't want to waste your time filling out forms to only get your account rejected.

I have no clue why they do this.

# Review

I've been using this service for about a year now and have had no problems with it.

Every virtual credit card I've created works great and here's some of the more popular sites I tested these with:

- ✓ Aweber
- ✓ Netflix (you can resell these easily)
- ✓ Spotify
- ✓ Avast
- ✓ GameFly
- ✓ And a lot more...

# Sign Up

The first step is signing up to a site called NetSpend. This is an online bank that have different plans (I'll let you check them out on their site). They have a free plan with no monthly fees as well.

About the bonus: you (*and I*) can receive a \$20 bonus with an initial deposit of \$40. The \$20 bonus does not work without an affiliate link (*go ahead and try it if you don't believe me*).

*Affiliate Link:* <http://www.mynetspendcard.com?uref=7151603172>

*Non-Affiliate Link:* <https://www.netspend.com/>

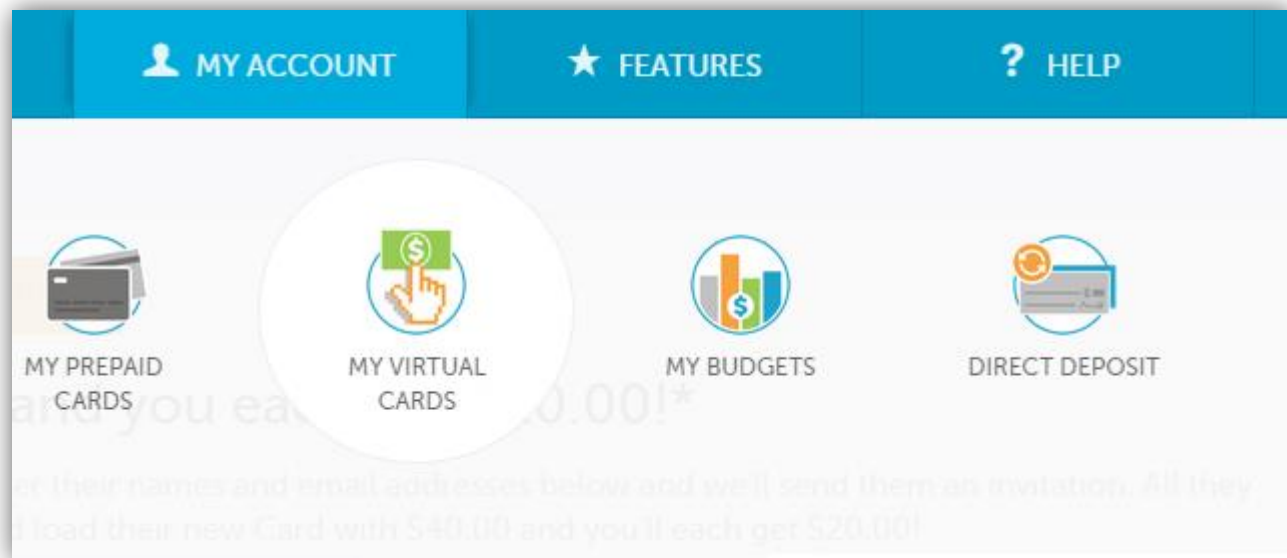

*"The way I see it, you might as well take advantage of the bonus and make your money back that you paid for this handbook..."*

# After Sign-Up

After you sign up, you will receive an email with your details and you will also be receiving your debit card in the mail.

Log in to your account and click on “My Account” at the top. This will bring down a menu.

Then click on “My Virtual Credit Cards”.

# Virtual Cards

On this page you will be able to create your virtual credit cards and you will be able to see the status on them –as well as the option to disable them.

I've created over 50 of them so far with no issues.

# Conclusion

In conclusion (sounds like a school report), virtual credit cards are very useful and you can use them to make money if you're smart about it.

Obviously I'm not going to tell you the methods there are to do this, as there are some above but I'm sure you will be able to figure something out.

Enjoy your virtual credit cards!
