

# Bitcoin Carding Tutorial

Basically, many bitcoin sellers refuse to accept paypal or credit cards because of chargebacks. Spicy Coinity is a new bitcoin funding service that came out since April, 2014. They fund only bitcoin for now and their service is totally satisfactory. They accept all major credit card and process orders within instantly.

however, this tutorial teaches fellow carders how to buy bitcoin with a private credit card (not public credit cards) from Spicy Coinity. And make sure you have enough balance in the cc before purchasing. Visit their page on [SpicyCoinity](#)

1. Use VPN mostl, SumRando
2. Mastercard or Visa card without vbv or mc-securecode
3. start with a lower amount lets say 0.1 bitcoin
4. upon successful processing of your order within 1 hour, you will receive a message about successful order.

Enjoy guys
