Making Cash, Anarchy Style  
[---]

Well, here we sit in the middle of a stupid ass economic depression. The fucks of the '80's have fucked it up for us '90's boyz. Yes, they had lotsa cash, things were fun and life was great. Well now things are expensive no one has cash and life sucks. So I felt it NECCESSARY to develop some Anarchial ways to make cash to support your Anarchial ideas. But that is not all, there is another half to this text, the other part shows all the great things you can spend your money on. Things such as Weapons, explosives or even a P.O. Box are all great ideas to spend your (not so) hard earned ideas. Well here I go.....

#### PART A. MAKING CASH -----

1. Offering protection money is a great way to make cash off of the weak and sad fucks that you know. Well, if they get themselves in a jam a quick way to make some cash would be to offer to protect them for say \$20 a week. This will usually work for the fucks in a MEGA jam. Then if you want to avoid wasting your strength on this loser, you can pay the guy who wants to kick his ass \$5 to leave him alone, so it's great you make \$15 for doing absolutely nothing!! This is a GREAT cycle and I frequently do it ALOT!!

2. Blackmail.....the perfect thing for all aspiring Anarchist. This can generate you ALL kinds of cash, all depending on the severity off the incident of which you know about. Usually you'll only find out about small time things which are only worth about 5-10 dollars. Things such as phone bugs, hacking, voice mail takeovers and brute force are just some of the ways that you can get information about the asshole. If you pick up half decent information then you can get 20 and up dollars, and hey if you've got the local SAS agent living on your street then you can rake in thousands of dollars, but the odds of that aren't very likely.

3. Performing revenge for people who don't wanna take the risk of getting caught is a great way to rake in some extra bucks. You could do all kinds of things such as lower his marks, destroy the assholes work, set fire to his house, use LOTS of thermite on his car. Those are all great ideas to "pay back" the loser who fucked with your employer. I usually charge about 10-20 dollars for a good variety of paybacks.

4. Selling weapons and explosives at your school is a GREAT way to make cash. Things such as thermite or smoke bombs are my most popular items, and will rake me in alot of cash. Some dumb fuckaz will pay up to \$20 for 50 grams of thermite...which is ALOT of money!!!

5. Selling "special" information to losers at school is great for a few bucks. I sell lamers extenders for roughly \$20 a shot, not to mention special phone numbers for about \$20 also. I once raked in \$25 bucks just for Queen Elizabeth's phone number!!!

6. Letting people use your P.O. box for whatever illegal activities will usually get you ALOT of money. Just charge them \$10 a month to use it. You

can usually do this with sysops and Carder's. If you get enough people to do this with, then eventually you'll end up making money by having a P.O. box!!!

7. Selling stolen or carded items will end up making you ALOT of money. Things such as carded computer stuff or basically anything in demand can guarantee quick cash. I usually sell those video sets that you order by phone, they make the most.

8. Selling dope to the local junkies can rake you in ALOT of cash. I usually just concentrate on Marijuana and ACiD, Marijuana can be grown at a nice remote area in your local forest, sometime in the spring. If you need seeds, chances are the local dealer will sell you a few for a decent price. As for ACiD there are ALL KINDS of texts floating around on how to make that shit, all it really is, is a mixing of MANY MANY chemicals (rat poison, bleach), most of these texts will seriously fuck up anyone who does it....but hey....that's not your problem right???

9. Stealing tapes, or CD's from HMV is a snap and selling them is even easier. To steal a tape do the following. Make sure they don't have those thick (2 cm) stickers on them (the ones with serial numbers), if they don't then you can just walk out of there with a tape, the alarm is only aroused by those thick stickers that the store puts on a few tapes and CD's. As for stealing CD's, it's just as easy, just go to an area of the store where no one is really watching what you are doing, and then cut or peel the thick sticker off. It's that easy!!! Of course for those of you who are SO PRECAUTIOUS just rip the plastic off of the WHOLE TAPE!!! Then you can just walk right out of there with it....great huh?? Usually you can sell tapes for about \$8 and CD's for \$15...have phun!!

10. Some people will actually PAY money for things such as texts and warez. I can sell games to the fucks in my class for MEGA cash. I usually get \$5 for a good game such as DOTT or X-Wing, and if you sell enough of them, hey that's alot of money!!!

11. Using thermite to melt through things such as mailboxes or other types of outdoor locks will usually result in a net gain for you and your companions. You can usually pick up at least \$50 from just one mailbox, and you can make MEGA cash on Christmas!!!

12. Using LOTS of contact cement on various locks in your school will help you achieve "financial stability". Just FILL the lock with contact cement, and it will harden very quickly, and when nightfall comes, they wouldn't have been able to lock the doors (can't get the key in the locks. So, you have access to the whole school. First check the front office for cash and other things of value. Then rip off the supply room....the rooms you have classes in and any other rooms that you can think of. I usually give my marks

a boosting and destroy MANY things while I'm in there. This is a GREAT way to

pick up extra cash and MANY other things!!! Have phun!!!

13. Getting information about people for people is a great way to make extra cash off of your loacal pir8 users who wanna get back at some lame fuck. Using a CNA (Customer Name And Address) just by knowing the phone number of the loser you can get his name and address. These numbers are not hard to find. Another way to get information on some asshole loser is by checking out my Lamer Extermination Pack. This has LOTS of ideas on getting pictures and info on any fag ass lamer.....

14. Viruses are in HIGH demand at my school, they think it's sooo cool

that they can just give some loser a file and it will fuck up there enemies computer with just one file!!! This is so pathetic but SUCH a GREAT way to make cash. I usually charge about \$2 for a virus and \$4 for BIG NAME virii (Michelangelo virus). This is the worst case of lameness but these stupid fucks who have NO life will pay it, so have fun exploiting there lameness!!!

15. I make ALOT of money by selling rigged up lighters at my school, they cost me about .50 cents and I sell them to all the geeky lamers at my school for three bucks each, this is a helluva GREAT way to make cash when you're selling up to 10 a day....not bad huh! To figure out how to properly and effectively rig the mutha fuckaz lighter, just check the file, LIGHTERS.TXT in our third text pack, it was (well) written by Purple Tentacle.
