HOW TO GAIN **10K+** FACEBOOK  
FAN PAGE LIKES WITHOUT DOING  
ANYTHING By [ISA](#)

*Now this method is extremely elemental,  
and*

*Public, thence why this E-Book is Clear.*

☺ /

*testament never business public methods  
and*

*try to sell them.*

*Only obey the steps beneath and you will  
be*

# *exploit your Facebook fan page to easily over 10K fans.*

## **Step 1:**

Now this move is fit, the easiest considering the fact that its only registering and confirming your eMail Address. Foremost off we leave requirement to go to the site, which is located [HERE](#). Erstwhile you get there you must fill out all the Registration input fields and yielding the Security Check, Erst thoroughgoing hap to Click the "Signup" button. ( As far as I remember you require to confirm the email address, but YouLikeHits may have changed that.)

## **Step 2:**

After you complete **Step 1** you must Log In to YouLikeHits. Once you Log in successfully you should see a side bar. Under "Your Settings" you should see something like this:

Since this guide is only based on ( you click and edit/add settings for Others too) I am going to guide in that context.

Ok now Once you are on the page you need to fill in the input fields with proper information.

No I have my CPC (Coins Per Click/ Points Per Click) set to 8, but set yours to 5 which is a nice average. Make sure it is as follows.

To gain a great bonus on top of Sign Up bonus (if any), you can refer Member (referrals) too, which gives you a 100 Points per referral.

Anyways, from here either you can Manually Like other Pages or Follow Step 3 for "AutoPilot Mode".

## **Step 3:**

Ok heres the part u've been waiting for.

First you gonna need Mozilla Firefox to work. Download it from [Here](#) and Install it.

## **Step 4:**

After **Step 3** go to this [link](#) ([mirror](#)) to install an addon onto Firefox.

## **Step 5:**

Now download this [file I created](#) and Just Copy-Paste it to iMacro Location.

*[To find the Location go to firefox there will be an iMacro (right before the*

*Address bar) icon or at some random location I have have no lue about. Click*

*on it.*

*A sidebar will appear, at the bottom there will be three tabs apparently.*

*“Play” “Rec” “Edit”. Click on “Edit” A Window Bar (or whatever that u call it*

*is) will appear.*

*“Folder Macros:” is the Folder you are looking for.]*

## **Step 6:**

Ok everything that has to be set is all set (If you’ve followed it Step-by-Step).

Ok Now to ON the AUTO PILOT THING. Click on the iMacro icon. Highlight the The File You’ve Just Added to the iMacro Folder. (If its not present there click on Edit Tab at the bottom and click on “Refresh Macro List” Button) Go to the “Play” section in iMacro and change Max to your desired amount then simply hit Play (Loop).

That’s Really it. Auto-pilot norm initiated. Honourable sit approve, unstrain and inactivity for the points to be gained and depleted from your account in reverse of the Likes You Get ☺ .

## **ENJOY!!**

Now everytime you want to do this just follow **Step 6.** ☺

And One more thing yes, since its a Browser you know what you can do with it. Minimize. Use New Windows or Other Browser.
