

## Nike Carding Method

Here, you can learn how to card the official Nike.com store. Don't forget that it's 100% working and tested personally by me.

Let's get back to work.

It's a fresh method and a working one.

Things you'll need:

- RDP; (UPDATE 2015: Works with PREMIUM Socks5 - Tested and Premium CyberGhostVPN)
- USA Drop; (If you live in some of the countries where Nike ships, then find a place in your town)
- USA CC (Visa or Master) with high balance. Can be public, but it's easier if it's private;
- Speed of act; (That's your acting speed, how fast you'll be depends of yourself);
- Brain; (Be smart!) HINT: Never, but never copy/paste the CC numbers. Real customers type them number by number.
- Be real;

- 1.) Find a nice and stable RDP. (If you don't know what's RDP yet, google it)
- 2.) Login to your RDP via Remote Desktop Connection.
- 3.) Start the web browser (mozilla firefox, chrome, opera ...) and clear the cookies/cache/history.
- 4.) Go to [Check your IP, Check DNS, Check for anonymity](#) and look up if your IP is not blacklisted.
- \*4.) If you're using Socks5 or VPN change the timezone to your PC to be the same as the IP's.
- 5.) Jump to the official nike store: [https://secure-store.nike.com/us/en\\_us/](https://secure-store.nike.com/us/en_us/)
- 6.) Chose the product you want to order, add to card then hit the CHECKOUT button.
- 7.) Always checkout as a GUEST. (Stores have smaller amount of information when we are guests.)
- 7.) Billing = Shipping (Your billing address is the drop and your shipping address is the same.)
- 8.) Enter Credit Card's info (CC Number, Exp. date and CVV2)
- 9.) Check the "My billing details are the same with shipping" mark.
- 10.) Put a fake phone number. MUST be similar to the numbers that are used in the shipping country.
- 11.) GMail is our service. The e-mail should look like john.doe@gmail.com if we ship to "John Doe".
- 12.) Place the order.
- 13.) Preparing to ship.

We are done with them. Now it's time to wait.

They need approximately about 24h to ship your order.

- That's it, have fun!
