

Get Free Unlimited US Phone Numbers

These phone numbers can be used for anything you want, activations of accounts, spam, receiving SMS and Voice messages.

1. Create a GMail, Yahoo! or Outlook email address. You'll only need this once.
2. Go to <http://meltmail.com/>, insert your created email address with a 3h timer and go

Create Melt Mail.

3. Next go to <http://voicemail.k7.net/signup/Signup> with your melt mail. Input a PIN (ex. 1234, 0000, and so on and so forth).

4. Do the captcha at the end of the page and finish the registration. You should get a phone number starting with 2XXXXXXXXX.

That is your phone number. The prefix is +1 2XXXXXXXXX.

5. Login to the site to view your messages or voice messages. You can also receive SMS and Voice messages via email.

Just repeat from step 2 for unlimited numbers.

Bypass Any phone Verification (Google/Facebook /Bank/Paypal/Ebay...) SMS &Phone Verification

Sometimes you want to create many accounts in google or facebook but you can't since they made the new security method, this type of protection is to verify your mobile phone number by sending you a SMS containing the verification code. So in this tutorial i will show you 2 methods to

verify your account on google or facebook without using your mobile number.

Method 1:

1. Go to www.pinger.com/tfw/
2. Create a free account and pick a random number
3. Paste the number in the verification website(Google/Facebook etc)
4. You will receive a SMS in your account(on pinger)

With this method not only you can used for verification BUT to contact with your friends and many other things ;)

Method 2:

1. Go to receive-sms-online.com/
2. Pick a random number and copy it
3. Paste the number in the verification website (Google/Facebook etc)
4. Go back to the receive-sms-online.com and click the number you chose

5.You will notice the code for account verification :)

NOTE: in this method everyone can see the sms so be careful

Other Sms receiver websites :

receive-sms.com/

www.k7.net/ lleida.net/uk/

sms-verification.com/

receive-sms-online.com/

pinger.com/tfw

receivesmsonline.com/

freephonenumber/

www.receivesmsonline.com/

www.youtextmessage.com/

www.simser.info

Method 3 :

For USA , get a free US number :

1. Sign Up on callcentric.com/login

Under the **New customers please sign up here**

2. Fill all the fields with your information and click continue.

3. Now verify your email and enter your own address or Get a

free USA address from here: link

Next click on I agree

4. Click on “**Go to My CallCentric**” now under your username

there will be CallCentric # in this format 1777*****

5. Open <http://phone.ipkall.com> and fill information :
Choose your

account type : SIP Choose Area Code for your
IPKall Number:

(253) SIP username : Now put your CallCentric #
here which

will be like this 1777***** Host name or IP address
:

callcentric.com And use previous email address and
password

which you used on CallCentric.com and Click submit

6. Now check your email address you will receive an
email from

info@ipkall.com in which your detail will be given.
At the end of the first line there will be your local US
phone

number but you need to register this number.

7. Download Express talk from here

8. When you are installing express talk, select the
default

option for all screens. At "SIP Setup" option, select
"Yes, I

already have a SIP account" and enter all your detail
as you

fill in Step "5" and log in.

9. After your successful login your US local phone
number will

be registered automatically. Which you can see on
CallCentric.com home page under "Balance" tab
saying "Your

phone is registered"

Get US Google Voice Number

1. Go to google.com/voice in new tab or browser
sign in with an existing account or you can sign up
for a new Google account

2. Click on Get a Voice number then on "I want a new number" and pick any number of your choice by entering Area, zip code, city, word or phrase number after choosing your number, Create a new pin and click continue

3. Put your IPKall phone Number without dashes at "Add a forwarding phone" and click continue Now Google will verify your number you will be provided a two digit code for verification now press "Call me now" button

4. Now you will receive a phone call on IPKall number, receive and press your two digit code. Now you have done, now you can free call on US or Canada to your relatives.

Method 4 :

Use a call-forwarder :

+

If you still have a problem to bypass phone verification (because some websites have strong security) , go to :

<http://www.tollfreeforwarding.com/>
or <http://www.sonetel.com/>

You will buy a virtual phone number from 100 countries and forward to your anonymous sim card or you real number (as you wish 😊)
Enjoy 😊
