

## **How to get ~100\$ from CVV online**

Hi, for this method, you will need these:

- =====
1. Clean socks/VPN from the US
  2. Good valid CVVs
  3. Access to VCC (virtual credit cards), need many.
  4. Paypal with bank attached to cash out

In this method, we will be exploiting [This Site](#) what they do is they buy gift cards for over 75-80% of its face value and they resell them in less than 2 days to other people.

=====

Here are some simple steps I have written that you can follow to start cashing out your CVVs:

1. Find VCC seller and attach 1 vcc to 1 paypal you created (memorize address you put for each account or save it). Make around 20 accounts if you want big money. 5 is okay too, you will make the money back to get more in less than 3 hours.
2. Find CVV seller, buy ONLY US. Also, get clean Socks.
3. Go to [This Site](#) and on the left, you can choose to “Sell Gift Card”, so click on that. Now you can either sell to them with mail or get instant funding in Paypal. So click on “Instant Funding – Paypal” and a popup should come out.
4. Look at list of stores that [This Site](#) buys from and order Electronic Gift Cards from all the sites above.
5. Use your CVV + Clean socks to order the gift cards to an email.
6. When you receive the E-Gift Card, copy+paste the number + PIN in the PlasticJungle “Instant Funding” and it should now ask you for Paypal CC card number (VCC that you used) and address (why I tell you to memorize it).
7. They give you Paypal funding INSTANT, so make sure you have one to cashout with.
8. Now you can repeat all these steps (order 10 per hour if you want or more) to cashout more Electronic Gift cards.

Tips:

- MAX buy 50\$ gift card, because over that, the store usually asks for call-in confirmation
- They only sell 50\$ max to 1 paypal account, so if you can make them fast or have someone make them for you for 2-3\$ each. For every 50\$ gift card you make minimum 30\$.
