

HOW TO CARD ANY ELECTRONIC GOODS 100% WORKING

Website We Are Going To Be Focused On Today : WALMART
- EVERYTHING IS CARDABLE IF CARDED CORRECTLY -

:....WALMART.COM....:

How Walmart Detects Fraud :

This System Is Still Being Used In 2013 [Was Fraud Specialist For Walmart Fraud Department]

STRIKE 1 Billing Info Mismatch (E.g Wrong Street Number/Zip Code/Billing Phone Number)

STRIKE 2 IP Does Not Match Credit Card Billing State, Or Socks5/Proxie/VPN Has Been DDcarder
(Yes Walmart Security Systems Detects This)

STRIKE 3 Shipping Address Is Different From Billing Address
[No Way To Avoid This As Long As You Don't Have Strike 1 OR Strike 2 Your Order Will Ship]

=====

Step One [GET A GOOD CVV *MASTERCARD*] : You Will Need To Get A Good Credit Card With A High Validity Rate , In Order For Walmart To 100% Ship To Your Drop The Credit Card Billing Address Must Match 100% And So Must The Billing Phone Number. That Way You Don't Cause Any Alerts [SEE STRIKE 1]. Selecting The Right Credit Card Type Is Extremely Important. Cross Out Visa Because Walmart Has Verified By Visa Systems. Amex Sometimes Work But It's 50/50. I Recommend Using Master Card Gold/Plat/Biz/Corp Cards. Once You Have A Good CC Move On To Step 2.

Step Two [Getting A RDP] : Although Some People Can Argue That They Carded Walmart With Socks5 , They Just Got Lucky In Order To Insure That They 100% Ship Your Order. You Must Get A RPD Matching The Credit Card Billing State.(RPD - REMOTE DESKTOP THAT YOU CAN CONTROL). Once You Get A RDP Move To Step 3.

BE ON RPD FOR STEP THREE AND FOUR

Step Three [EMAIL AND WALMART ACCOUNT] : Create A New Email Account (Yahoo/Hotmail) Make Email Contain Credit Card Holder Name (E.g "1stName.Lastname938@live.com"). After You Have Created The Email Go To Walmart.com Make A Account , Once You Have A Account Click On The My Account Option And Then Click My Payment Option And Click Add New Card. (Add The CVV You Are Going To Use) Once Card Has Been Added Sign Out , Clear Cookies. Once That Is Done Go Back To Walmart.com. After You Have Done This Move To Step Four (Last Step)/

BE ON RPD FOR STEP THREE AND FOUR

Step Four [Carding INFO/Limit] : Once You Have Completed Step Three Select What You Want To Card
Keep Under \$700 (Anything Above 700 Will Go Under Manuel Verification). Once In Cart Click Checkout , It Will Prompt You To Login , Login Using The Account You Created Then It WILL Prompt You To Enter You Shipping Address (In This Case You Drop Info) Make Sure That When You Enter Drop Name The Last Name Matches The Credit Card Holders Last Name! (E.g CC Holder Name : Kurupt.ru , Wilson , Your Drop Name Will Be Name , Wilson) Select The Fastest Shipping Method Card It And Your Done. (Don't Forget Your Doing All This On The RPD Matching CVV STATE)
