There are a lot of Russian and Ukrainian exchangers where you can do that, but I'll not list all them.

Exchange Visa USD to W1 and you're will be redirected to the [This](#) payment processor page. It will ask to send a SMS confirmation to a mobile phone that MUST BE OF THE SAME COUNTRY OF THE CARD, or it will not works. Now you will see the VBV page, buy a DOB+SSN card so you can bypass it. You're money will be sent to your W1 wallet. In you're W1 account you can withdraw the money to a Bank or to a Visa. Withdraw to you're anon Visa and enjoy you're money.
